# Q4 FY22 Results Presentation

# Important Notice

This presentation as well as any information communicated in connection therewith (the "Presentation") contains information regarding SUSE S.A. (the "Company") and its subsidiaries (the Company, together with its subsidiaries, "SUSE" or "Group"). It is being provided for informational purposes only and should not be relied on for any purpose and may not be redistributed, reproduced, published, or passed on to any other person or used in whole or in part for any other purpose.

This document contains alternative performance measures (APMs) which are further specified on pages 25 & 26.

Certain statements in this presentation may constitute forward-looking statements. These statements are based on assumptions that are believed to be reasonable at the time they are made, and are subject to significant risks and uncertainties, including, but not limited to, those risks and uncertainties described in SUSE's disclosures. You should not rely on these forward-looking statements as predictions of future events and we undertake no obligation to update or revise these statements. Our actual results may differ materially and adversely from any forward-looking statements discussed in these statements due to several factors, including without limitation, risks from macroeconomic developments, external fraud, lack of innovation capabilities, inadequate data security and changes in competition levels.

The Company undertakes no obligation, and does not expect to publicly update, or publicly revise, any forward-looking statement, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to it or to persons acting on its behalf are expressly qualified in their entirety by the cautionary statements referred to above and contained elsewhere in this Presentation.

## AGENDA

1. Business Update

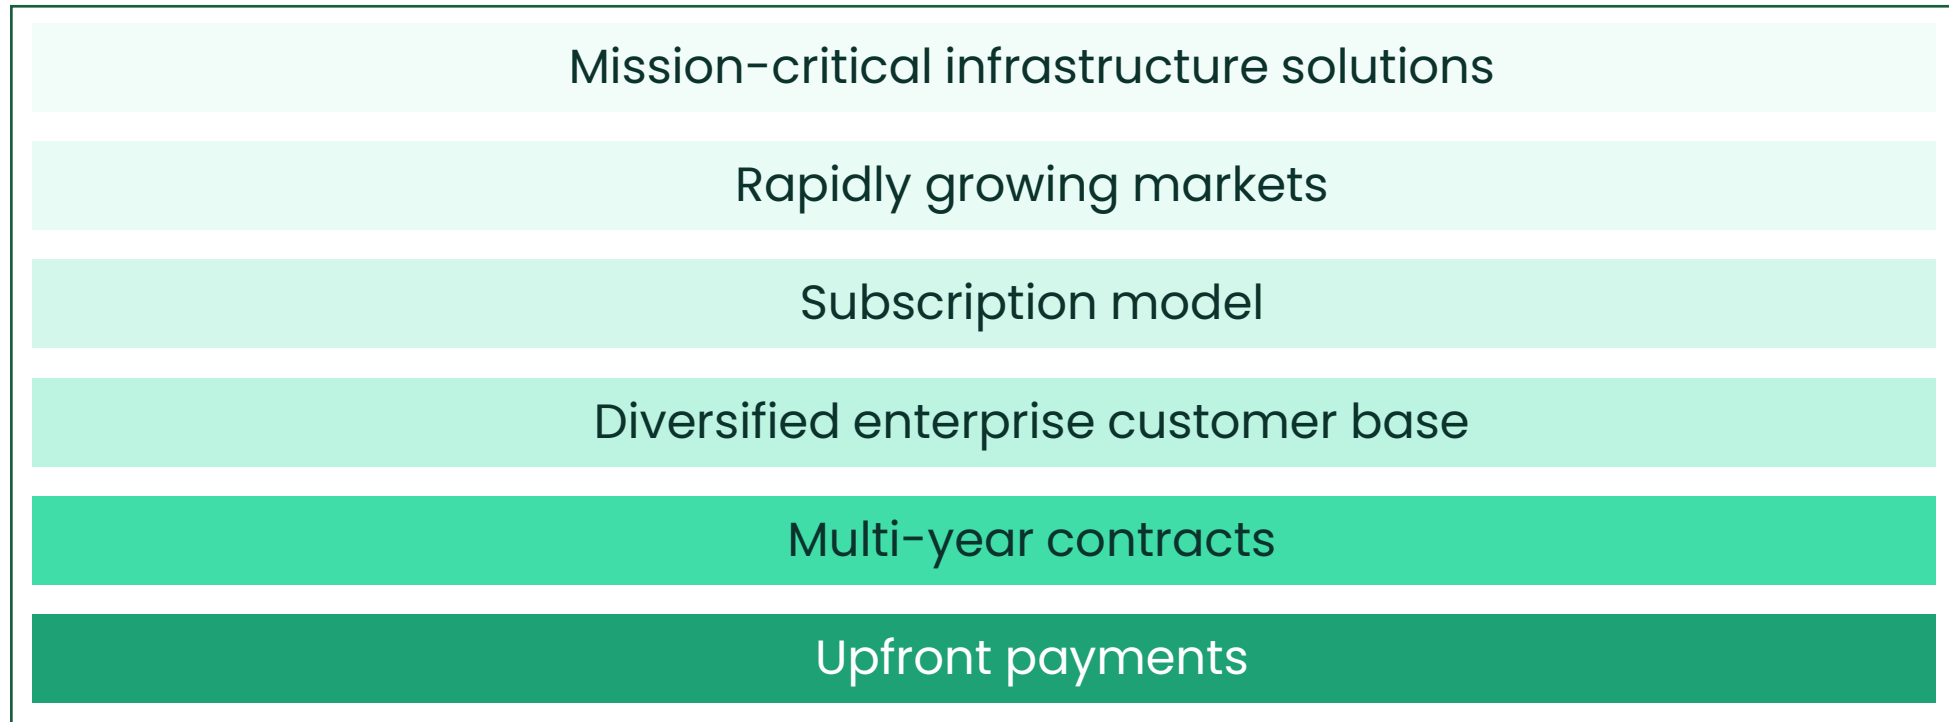

2. Financial Update

# Business Update

Melissa Di Donato, CEO

# Highly Profitable Business Model With Recurring Earnings

**Resilient business model drives long-term sustainable growth with high profitability and high cash conversion**

# FY22 – Strong Growth In Challenging Macro

# Q4 FY22 Operational Highlights

Product updates

**Delivered significant enhancements to Rancher, SUSE Linux Enterprise and SUSE Edge**

Rancher Prime, the first differentiated paid-for Rancher product

Adaptable Linux Platform (ALP) prototype, the next generation of Linux

SUSE Edge 2.0, a fully integrated solution for management of edge devices at scale

Re-focused sales organization

**Simplified and re-focused sales organization**, including the creation of a specialized sales force dedicated to acquiring new and managing existing Emerging customers

People

**Disciplined and measured approach** to cost control

**Increased capacity for technical support**, focused on Rancher

ESG

**Delivered against all our FY22 commitments**, including Climate Action, Information Security & Data Privacy and stronger disclosures; also evidenced by external recognitions

# Significant Wins In Cloud Native Solutions

Enterprise Software Leader

Multinational Leader In Engineering And Technology

Forbes 2000 Financial Services Leader

Overview

Net new win for NeuVector at prominent U.S. enterprise software leader, with significant expansion potential

Five-fold expansion of Rancher environment at large German multinational engineering and tech customer – in addition to their existing Linux solutions

Net new win for Rancher at major global investment bank secured through a competitive process

Products

Why SUSE

- ✓ Extensive evaluation of competing solutions led to selection of NeuVector as top choice
- ✓ NeuVector differentiated product features at run-time excelled at proof-of-concept stage
- ✓ Previous experience with NeuVector reinforced conclusions of solution evaluation

- ✓ Delivery of a future-proofed next generation platform for decentralized environments
- ✓ Proven solution – solution already successfully implemented in a subsidiary organization
- ✓ Tough selection process – involving multiple competitors – confirmed Rancher's leadership

- ✓ Truly open approach of Rancher and zero vendor lock-in
- ✓ Hybrid cloud management capabilities were critical
- ✓ Cost effectiveness of the solution versus the competition
- ✓ Reduced friction in software delivery cycle and standardized deployment methods

# Innovate Everywhere

OCT 2022

## ADAPTABLE LINUX PLATFORM

- Prototype of the most **innovative and modular** Linux architecture in the market
- Allowing users to **run workloads seamlessly** across the largest data centers, the cloud, and the edge
- Enhanced **security, resilience and reliability**

DEC 2022

## RANCHER PRIME

- First **differentiated paid-for version** of Rancher
- **Industry-leading security compliance** for enterprise Kubernetes deployments
- Platform for future **value-creating innovation**

OCT 2022

## SUSE EDGE 2.0

- **World's first 100% open source, cloud native solution** to manage Kubernetes, Linux and virtual machines at the edge
- Platform **simplifying, centralizing, and automating** Kubernetes and Linux lifecycle management across distributed edge locations

# Re-focusing On Our Growth Opportunities

**Capitalizing on these opportunities with our new go-to-market structure**

# New Go-to-Market Structure To Drive Continued Growth

# Delivering On Our Commitments To Evolve Rancher

## Progress since Q3

## Outcomes

1

- Launched the first differentiated paid-for version of Rancher in December, Rancher Prime
- Focusing on stronger security-based assurances as the incremental value in addition to the support, advice and services we offer today

Stronger security- and compliance-based assurances

Platform for future value-creating innovation

2

- Created a specialized sales force dedicated to acquiring new and managing existing Emerging (primarily Rancher) customers
- Rancher now available on AWS Marketplace

Strengthened approach to increase pipeline conversion

Better delivery of value proposition

3

- Increased Rancher's capacity for product development and technical sales support
- Enhanced Edge solutions with launch of SUSE Edge 2.0

Market-leading product: 80% increase in positive feedback in FY22

Best-in-class technical support: significant quarter-on-quarter reduction in time-to-closure for support cases in Q4

# ESG: Key FY22 Achievements

## Climate Action

Developed emission targets aligned to the Science Based Targets initiative's (SBTi's) Net Zero standards and built a roadmap for achieving these with clear priorities for the next 3 years; submitted targets for validation in Q4 FY22

## Information Security

Implemented and achieved certification of our information security and data privacy systems in line with ISO standards including ISO 27001 & 27701

## Disclosure

Publishing our FY22 Annual report with reference to the new GRI standards, the EU's directives for corporate sustainability reporting (NFRD & EU Taxonomy)

## External Assessment

Consistently amongst top 25% companies on ESG performance, having been rated by EcoVadis, Sustainalytics and ISS (ESG Quality Score)

# Financial Update

# Financial Results Summary

## Results Highlights

### Q4 FY22

- ➔ ACV \$138 million, up 11% (up 16% at constant currency)
- ➔ Adjusted Revenue \$170 million, up 11% (up 12% at constant currency)
- ➔ ARR \$646 million, up 12%
- ➔ NRR of 106%
- ➔ Adjusted EBITDA Margin of 39%
- ➔ Cash Conversion of 67%

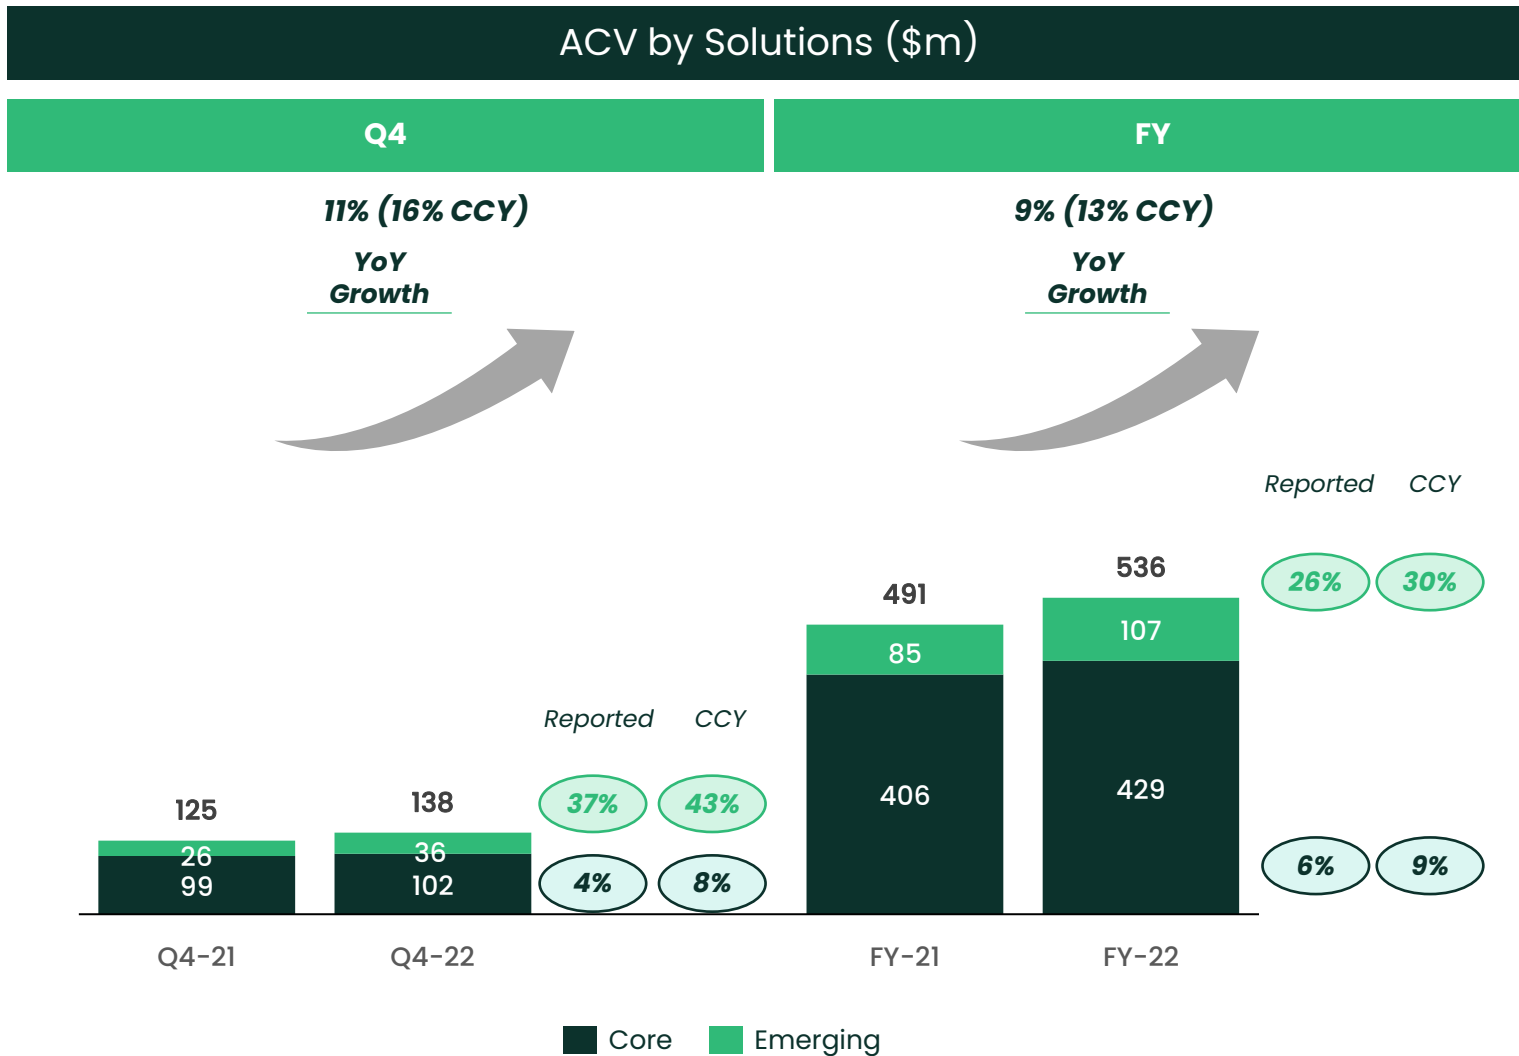

### FY22

- ➔ ACV \$536 million, up 9% (up 13% at constant currency)
- ➔ Adjusted Revenue \$658 million, up 14% (up 15% at constant currency)
- ➔ Adjusted EBITDA Margin of 37%
- ➔ Cash Conversion of 78%

***High revenue growth, profitability and cash conversion  
Delivered on FY22 guidance for Adjusted Revenue and Adjusted EBITDA margin***

# ACV By Solutions – Strong Emerging Growth In Q4

Group ACV growth up 11% (up 16% at constant currency) in Q4 FY22

- Core up 4%, up 8% at constant currency
- Emerging up 37%, up 43% at constant currency

## Highlights by geography

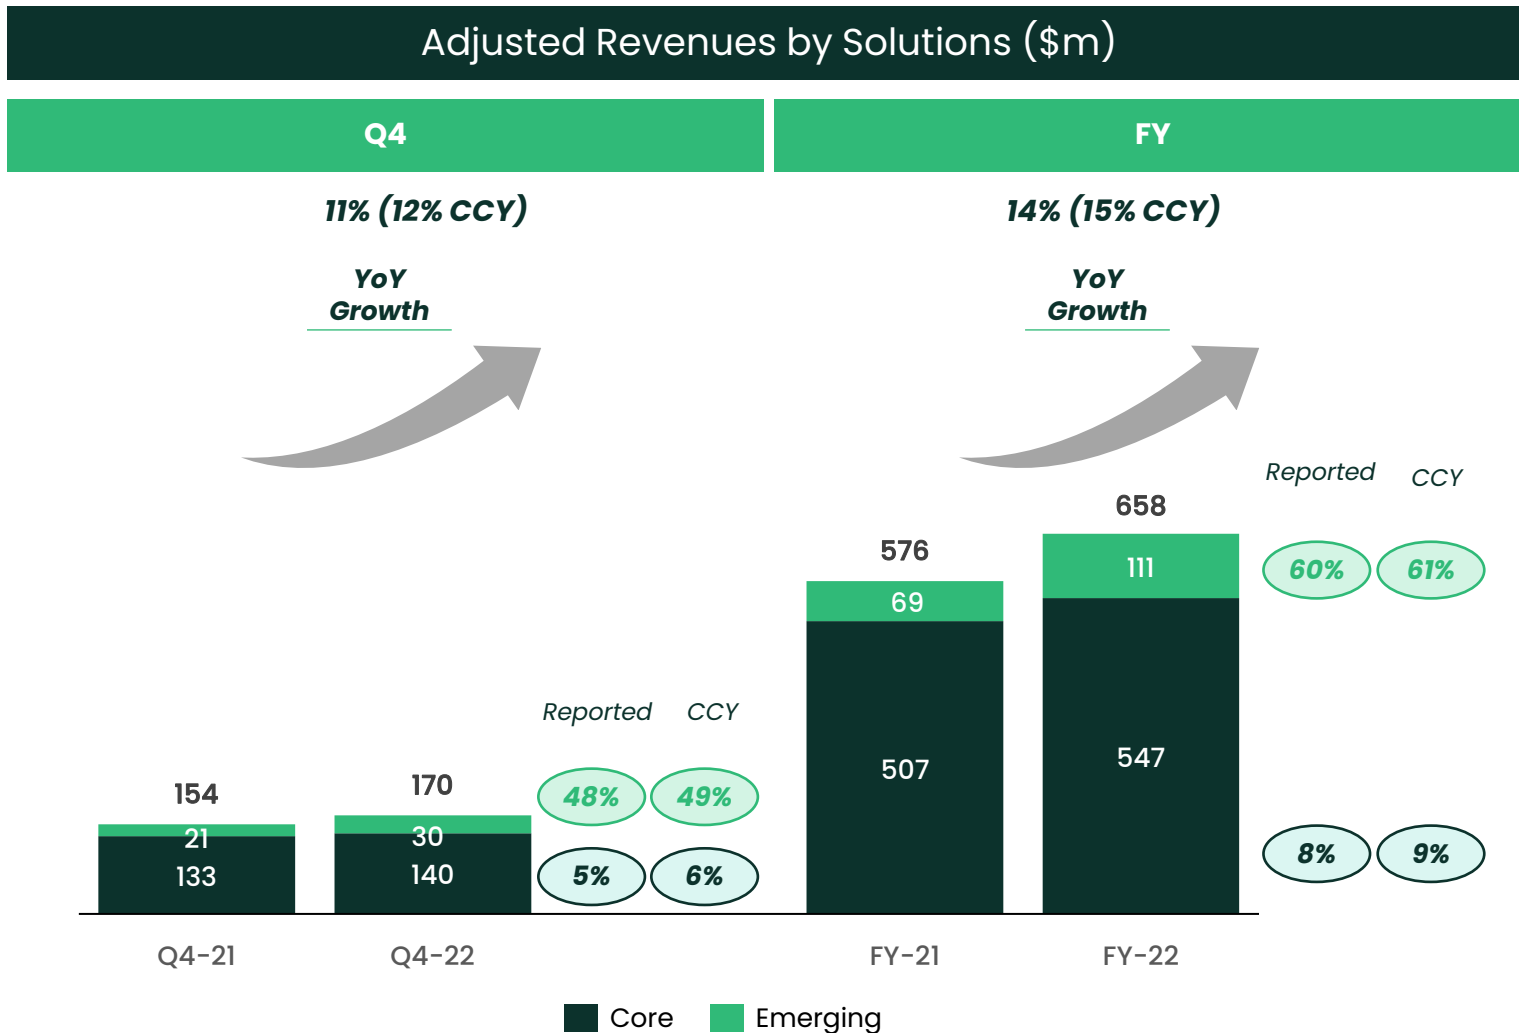

- Europe, Middle East and Africa up 13%, supported by several large renewals and good growth in sales through CSPs
- North America up 14%, rebounded after a lower renewal pool contributed to a modest decline in Q3
- Latin America up 7%, showing continued growth
- Asia Pacific and Japan down 5%, primarily due to the phasing of renewals

## Highlights by RTM

- End User growth of 12%, driven by strong renewals and upsell to End Users and continued strong growth in sales through CSPs
- IHV/Embedded ACV down 2%, driven by hardware shortages and a shift to selling through other routes, primarily through CSPs

# Adjusted Revenue By Solutions – Robust Growth

**Q4 FY22 Adjusted Revenue of \$170m, up 11% YoY (12% at constant currency)** comprising \$140 million in Core and \$30 million in Emerging

## Annual Recurring Revenue and Net Retention Rate

- **Q4 FY22 ARR of \$646m, up 12% YoY**, demonstrating the continued strength of its subscription business, supported by growth in both Core and Emerging ARR
- **Q4 FY22 NRR of 106%**, demonstrating a consistent ability to expand existing customer relationships
- **4 percentage points decrease** versus the prior year, due to the loss of SUSE legacy business earlier in the year, a maturing Emerging customer base, foreign exchange headwinds, and lower ARR from a small number of Core customers

# Operating Costs Evolution– Balancing Growth & Margin

## 1 Q4 Gross Profit Margin:

- Gross margin maintained at 93%, broadly in line with the prior year

## 2 Q4 Sales, Marketing & Operations:

- **1% decrease**, with the increase in headcount more than offset by foreign exchange rate movements, and cost savings across business travel and marketing spend

## 3 Q4 Research & Development:

- **5% increase**, due to investments in people focused on Emerging product development and technical support, partially offset by the impact of foreign exchange rate movements

## 4 Q4 General & Administrative:

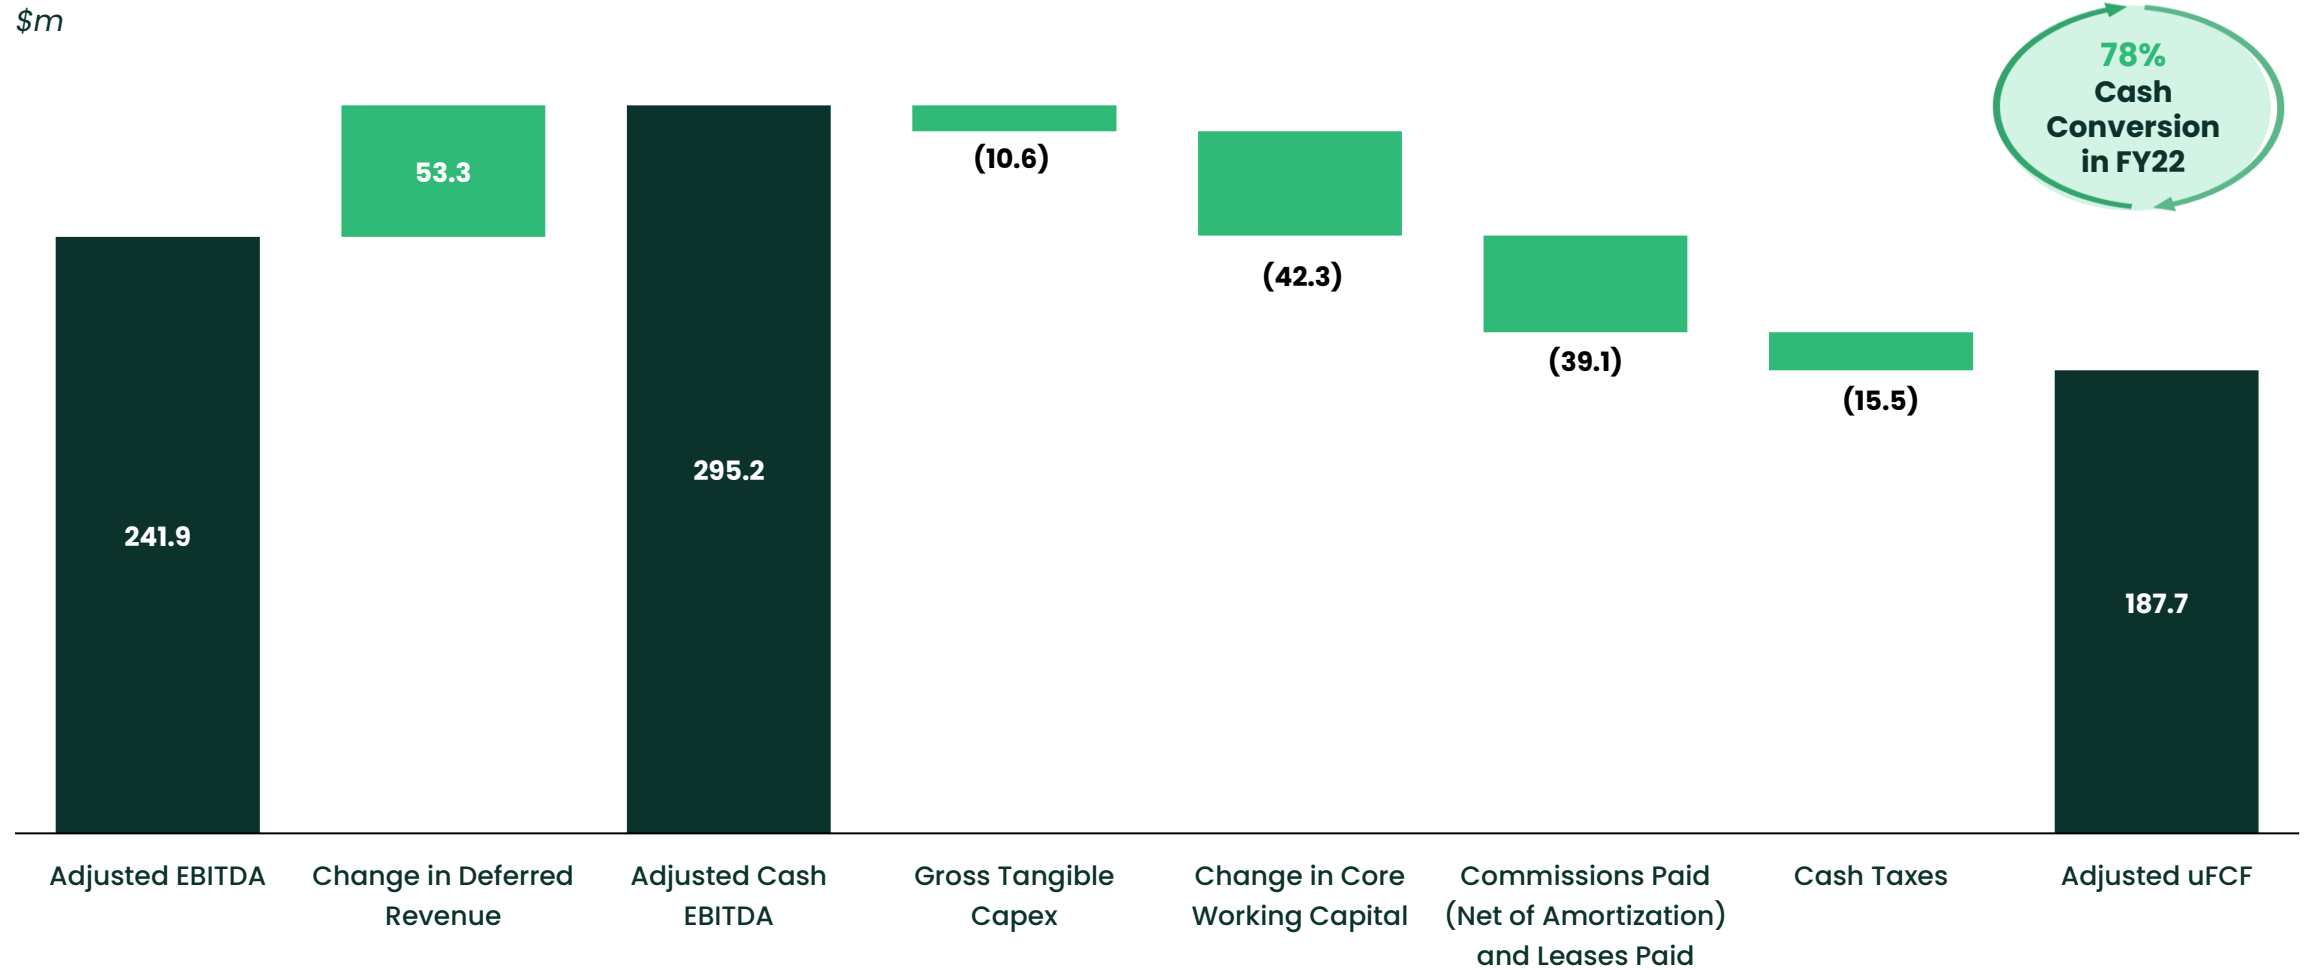

- **17% decrease**, driven by lower consulting fees and movements in foreign exchange rates which more than offset headcount investments and an adverse realized foreign exchange movements

## 5 Q4 Adjusted EBITDA margin:

- **8 ppt increase**, with revenue growth further enhanced by strong cost control and a positive impact from foreign exchange movements

# Alternative Performance Measures (APMs) – 1/2

This document contains certain alternative performance measures (collectively, “APMs”) as defined below that are not required by, or presented in accordance with, IFRS, Luxembourg GAAP or any other generally accepted accounting principles. Certain of these measures are derived from the IFRS accounts of the Company and others are derived from management reporting or the accounting or controlling systems of the Group.

SUSE presents APMs because they are used by management in monitoring, evaluating and managing its business, and management believes these measures provide an enhanced understanding of SUSE’s underlying results and related trends. The definitions of the APMs may not be comparable to other similarly titled measures of other companies and have limitations as analytical tools and should, therefore, not be considered in isolation or as a substitute for analysis of SUSE’s operating results as reported under IFRS or Luxembourg GAAP. SUSE has defined each of its APMs as follows:

<b>Annual Contract Value or ACV</b>	Represents the first 12 months value of a contract. If total contract duration is less than 12 months, 100% of invoicing is included in ACV.
<b>Annual Recurring Revenue or ARR</b>	Represents the sum of the monthly contractual value for subscriptions and recurring elements of contracts in a given one month period, multiplied by 12. ARR is calculated three months in arrears, given backdated royalties relating to IHV and Cloud Service Providers, and hence reflects the customer base as of three months prior.
<b>Adjusted Cash EBITDA</b>	Represents Adjusted EBITDA plus changes in contract liabilities (also referred to as deferred revenue) in the related period and excludes the impact of contract liabilities haircut (also referred to as deferred revenue haircut).
<b>Adjusted Cash EBITDA Margin</b>	Expressed as a percentage, this APM represents Adjusted Cash EBITDA divided by Adjusted Revenue.
<b>Adjusted Gross Profit</b>	Represents Adjusted Revenue less cost of sales adjusted for non-recurring items.
<b>Adjusted Gross Profit Margin</b>	Expressed as a percentage, this APM represents Adjusted Gross Profit divided by Adjusted Revenue.
<b>Adjusted Earnings per share</b>	Represents Adjusted Profit after Tax divided by the weighted average number of ordinary shares in issue during the period.
<b>Adjusted EBITDA (AEBITDA)</b>	Represents earnings before net finance costs, share of loss on associate and tax, adjusted for depreciation and amortization of intangible assets, share-based payments, contract liabilities haircut, separately reported items, specific non-recurring items and net unrealized foreign exchange (gains)/losses.
<b>Adjusted EBITDA Margin</b>	Expressed as a percentage, this APM represents Adjusted EBITDA divided by Adjusted Revenue.
<b>Adjusted Effective Tax</b>	Represents the IFRS effective tax rate adjusted for the tax effect of adjusting items (those items adjusted for to arrive at Adjusted Profit before Tax).

# Alternative Performance Measures (APMs) – 2/2

<b>Adjusted Profit before Tax</b>	Represents Adjusted EBITDA, less depreciation and amortization (excluding intangible amortization for customer relationships, intellectual property and non-compete agreements) less net finance costs.
<b>Adjusted Profit After Tax</b>	Represents Adjusted Profit before Tax less notional average taxes.
<b>Adjusted Revenue</b>	Represents Revenue as reported in the statutory accounts of the Group, adjusted for contract liability fair value adjustment (also referred to as deferred revenue haircut).
<b>Adjusted unlevered Free Cash Flow or Adjusted uFCF</b>	Represents Adjusted Cash EBITDA less tangible capital expenditure related cash outflow, working capital movements (including commissions paid net of amortization of contract-related assets and excluding non-recurring items), cash taxes paid and leases paid.
<b>Cash Conversion</b>	Expressed as a percentage, this APM represents Adjusted uFCF divided by Adjusted EBITDA.
<b>Contractual Liabilities and Remaining Performance Obligations or “RPO”</b>	A Contract Liability is an entity’s obligation to transfer goods or services to a customer and is recognized in the Statement of Financial Position, when a payment from a customer is invoiced, before a related performance obligation is satisfied. A remaining performance obligation is a promise to transfer goods or services to a customer (with a contract agreed), at a point in the future, but is yet to be invoiced or recognized in the Statement of Financial Position.
<b>Leverage</b>	Expressed as a multiple, Leverage is Net Debt divided by Adjusted Cash EBITDA.
<b>Net Debt</b>	Represents the sum of current and non-current interest bearing borrowings (excluding un-amortized capitalized arrangement fees, gains or losses on loan modifications), current and non-current lease liabilities, less cash and cash equivalents.
<b>Net Retention Rate or NRR</b>	Expressed as a percentage, NRR indicates the proportion of ARR that has been retained over the prior 12-month period, which is inclusive of upsell, cross-sell, down-sell, churn and pricing. It excludes ARR from net new logo End user customers. The NRR is calculated three months in arrears, aligned to the calculation of ARR.
<b>Notional Tax</b>	Represents total income tax charge/credit for the year less the taxation charge/credit associated with adjusting items (those items adjusted for to arrive at Adjusted Profit before Tax).

# Continued De-Leveraging

## Net Debt (\$m)

Leverage

**\$558m Net Debt** at Q4 FY22, a reduction of \$162.8 million versus the prior year, driven by our strong cash flow

Leverage ratio of 1.9x, significantly lower than the prior year at 2.6x and well within our commitment to keep leverage below 3.5x
